

# SIR JOHN WILLIAM

## WELCOME

DRIVE A STEAM ENGINE FOR A DAY IN THE BEAUTIFUL SOMERSET COUNTRYSIDE.

Meet the Sir John William There can be no more evocative experience for anyone beyond the first flush of youth than the sight, smell and sound of a steam engine working in a field or trundling down a country lane. Now you can take part in this experience, and travel no further than Knighthouse Farm Cudworth nr Cricket St Thomas Chard Somerset the Sir John William is the name of the steam-ploughing engine built in 1889 and lovingly restored by John Jeffery, with the help of friends following his purchase of the old engine in 1995.

Sadly John did not live to see the completion of his labours and following his death in 2001, Betty Jeffery agreed that John's friends should complete the work. Now all can now enjoy the results of their efforts. The engine is now being look after on a voluntary basis by Richard Miles and crew. To share the experience and also help raise funds for the on-going maintenance of Sir John you can now participate, at modest cost, in the steam engine experience. This is a non-profit making venture and all monies/donations go directly towards the up keep of the engine.

## BOOKINGS ABOUT YOUR DAY...

Your morning will start at 10am and will consist of general cleaning, oiling, raking out the ash and lighting the boiler. You will then steam up before steaming off to Dowlish Wake for a visit to Perry Cider mill and then to the New Inn for lunch, where you will be wined and dined.

**The afternoon will start at 2PM and will last until 5PM.** You will have plenty of time to drive and work on this Richard Hornsby steam engine before shutting down and raking out the coals to prepare this beautiful steam engine for another day.

STEAM DAY  
£300 INC. LUNCH  
10 AM - 5PM

## ENGINE FACT

This engine is believed to be one of only four engines of this type remaining in the world and is one of the only two working engines remaining in the UK.
